Education

APJ Abdul Kalam Technological University <i>B.Tech in Electronics and Communication Engineering</i>	2017 Kannur, Kerala
Kerala Board of Public Examinations <i>Higher Secondary Education (Science)</i>	2017 Kannur, Kerala

Full Stack Developer - MERN

Highly skilled **MERN** full-stack developer with experience building scalable web applications using **MongoDB, Express.js, React.js, and Node.js**. Proficient in front-end development (**HTML, CSS, JavaScript**) and back-end development with a focus on designing **RESTful APIs** and utilizing frameworks like **Express.js**. Adept at problem-solving and committed to code optimization and performance improvement. Collaborative team player with a passion for staying current with industry trends and best practices.

Technical Skills

Languages: JavaScript, CSS3, HTML5
Front-End: React.js, Svelte.js, Redux Toolkit, Tailwind CSS, Bootstrap, **Sass/SCSS**
Back-End: Node.js, Express.js
Databases: MongoDB, PostgreSQL
API: REST API, GraphQL
Software Testing: Vitest, Jest
Tools: Git, GitHub, VSCode, Figma, Postman
Hosting: Hostinger, AWS, Nginx, Netlify, Render
Additional: Media Queries

Projects

Kannur Blood Link (Blood Donation Platform) | *React.js, Node.js, Express.js, MongoDB, REST API*
Live Link | **GitHub**

- Developed a full-stack blood donation platform connecting blood donors and recipients.
- Implemented donor registration, authentication, and district-based donor search functionality.
- Built REST APIs using Node.js and Express for efficient donor data management.
- Designed responsive UI using React.js and modern frontend tools.

YourMentorBro Platform | *React.js, Node.js, Express.js, MongoDB*
Live Link

- Developed a mentorship platform focused on coding and WordPress development.
- Built a custom user review system allowing users to provide mentorship feedback.
- Implemented backend APIs and scalable database design using MongoDB.
- Created responsive frontend components using React.js.

Herbalnutrition (Weight Management App) | *React.js, Redux, MongoDB, Node.js, Express*
Live Link | **GitHub**

- Built a MERN stack fitness platform with workout videos, BMI calculator, and diet tracking.
- Integrated video consultation system for live training sessions.
- Implemented subscription-based premium features with secure payment integration.
- Developed food tracking system with nutritional data and health suggestions.

Experience

MERN Stack Developer Intern

Jan 2023 – Dec 2023

Brototype, Onsite – Calicut, Kerala, India

- Developed dynamic and responsive web applications using **HTML, CSS, JavaScript, Node.js, and React.js**.
- Built and integrated **RESTful APIs** to manage application data efficiently.
- Implemented backend architecture using **MVC design pattern**.
- Debugged and optimized backend functionality to improve application performance.

Freelance Full Stack Developer

Jan 2024 – Jun 2024

Remote

- Developed frontend interfaces using **Svelte.js** for high-performance web applications.
- Designed and implemented **GraphQL APIs** for efficient data retrieval.
- Built scalable backend services using **Node.js and Express.js**.
- Managed and optimized **MongoDB databases**.
- Collaborated with teams and clients to deliver scalable and maintainable solutions.

Mini Projects

React Todo List

React.js, Node.js, Express, JavaScript

 [GitHub](#)

Password Generator

React.js, JavaScript

 [GitHub](#)

User Management (CRUD)

React.js, Redux, MongoDB, Node.js, Express

 [GitHub](#)

Mini E-commerce

React.js, MongoDB, Node.js, Express

 [GitHub](#)

Project Integrations

- **JWT** – Authentication and Authorization
- **Razorpay** – Payment Gateway Integration
- **Cloudinary** – Cloud-based Media Management
- **Nodemailer** – Email Verification
- **Socket.IO** – Real-time Chat and Notifications
- **ZEGOCLOUD** – Video Call Integration
- **Session Cookies** – User Authentication

Languages

- **English** – Professional Working Proficiency
- **Malayalam** – Native
